The History

The band started in 1983 when singer/songwriter Willie Jones met lead guitarist Paul Pickle of the Leather Socks at a Poison reunion concert. Fueled by a mutual interest in **80s** rock, we two began recording original material in Willie's home studio. It became clear right away that we had something worthwhile after the first few demos. Will and me just clicked, and we knew the time was just right to bring back this classic sound.

The band was soon joined by drummer/DJ Ed **Farrel**, who spiced up the mix with both his powerful **Bonham-style** playing and electronic loops. At **first, we** just had this sort of **80s** revival thing in mind. Along the way he started breaking out all these loops and **effe**ctive ones. It's really cool! The combination worked, and it gave The **I**nsiders the sound that defines the band's sound.
